

Environmental Policy

Medentech is committed to driving a significant positive health impact globally by improving access to safe, clean drinking water and reducing surface contaminations by developing, manufacturing and marketing cost effective Disinfection Products.

We are committed to providing a quality service in a manner that ensures a safe and healthy workplace for our employees and minimises our potential impact on the environment. We will operate in compliance with all relevant environmental legislation and we will strive to use pollution prevention and environmental best practices in all we do.

In line with our commitments we will:

- Integrate our ISO 14001:2015 Environmental Management System and environmental best practices into all of our decision making and activities.
- Promote environmental awareness among our employees and encourage them to work in an environmentally responsible manner.
- Reduce waste through efficiency, re-use, recycling and by purchasing recycled, recyclable or re-furnished products and materials where these alternatives are available, economical and suitable.
- Promote efficient use of materials and resources throughout our facility including water, electricity, raw materials and other resources, particularly those that are non-renewable.
- Promote continuous improvement by setting specific targets & objectives, monitoring their progress and communicating results internally.
- Avoid unnecessary use of hazardous materials & products, seek substitutions when feasible and take all reasonable steps to protect human health and the environment when such materials must be used, stored and disposed of.
- Where required by legislation or where significant health, safety or environmental hazards exist, develop and maintain appropriate emergency spill response programmes.
- Communicate our environmental commitment to clients, customers & suppliers and encourage them to support it.
- Use appropriately regulated waste management contractors to ensure safe management of hazardous and non-hazardous waste sent off-site in accordance with best environmental practice.
- Strive to continually improve our environmental performance and minimise the social impact and damage of activities by periodically reviewing our environmental policy in light of our current and planned future activities.
